

2J Supply Brand Offering

2J Supply Company Inc. was established by Jim Winget and Jerry Trimbach on March 1, 1962, at 2130 E. First Street, Dayton, Ohio. Both of their names began with the letter "J", so they chose the name 2J Supply Co. Their original logo, which featured two blue jays, was sketched out on a piece of scrap paper by a salesman.

Jerry and Jim both worked in the HVAC trade, and together they spoke of the need for a "distribution house" that was focused on the needs of the contractor. There was a need in Dayton, Ohio for a company that was easy to do business with.

2J Supply was built on the principle of "service to our customers". From one small location on First Street, 2J has grown to become a leading distributor of HVAC products in Ohio, Kentucky and West Virginia.

TOP 10 WAYS the 2J Supply Partner Profitability Program is designed to help you, the contractor, make more money!
